

VINCENT MORETTI, MD

Clinical Interests - My main clinical interests involve all aspects of hip and knee care, from non-operative management to surgical interventions including: arthroscopy, joint preservation, and joint replacement.

Research Interests - My research interests focus on various topics related to the hip and knee, including risk factor identification and predictors of clinical outcome after individual joint replacement surgery. I also study health-care disparities and interventional cost-benefit analyses that aim to improve the quality, efficiency, and economics of joint replacement surgery across the national healthcare system.

Education –

BS (Biomedical Engineering) Northwestern University

MD (Medicine) Northwestern University School of Medicine.

Training –

Residency: University of Illinois at Chicago

Fellowship (Joint Replacement/Adult Reconstruction): Rothman Institute at Thomas Jefferson University

Fellowship (Orthopaedic Clinical Research): University of Pennsylvania

Board Certification – Board Certified, American Board of Orthopaedic Surgery

Memberships -

American Academy of Orthopaedic Surgeons

American Association of Hip and Knee Surgeons

Association of Veterans Affairs Orthopaedic Surgeons
